Comments: Wayne forest single track

December 17, 2018

I am an avid single track rider living in NC and come to Ohio often along with a few others to ride the AMA sponsored events and some that are not. The trend is going to one-day events and it is hard for us to justify all that driving for a one-day ride, so we have been looking for Saturday ride locations to compliment the Sunday rides. It would be great if Wayne National Forest would consider adding more dedicated single track to their trail system, giving us more reason to ride at Wayne.

I'm an AMA and OMTA member and fully support the motorcycle life style; we love riding in Ohio.

Thanking you in advance for your time and consideration,  
Robert Rossi
