Comments: Single Track Trails - Wayne National Forest

I am writing in my full support of single track trails at Wayne National Forest; my daughter and i are very passionate about riding dirt bikes. The state of ohio is currently very limited to places to ride this style and we are forced to ride shared trails which put us in more dangerous situations. (4 Wheelers/ATV's whipping around corners) We love riding but need a solid and safe place to ride; we spend money every year to ride on private/safe lands and would really love the state to support us on this.

Thank you

Allen Butler
