Comments: Singletrack Motorcycle Trails in Wayne National Forest

Hello Rachel,

I was notified by the AMA about the WNF plan revision and wanted to add my voice to others on creating a single track trail system for off-road motorcycles. Being a newer rider, it would be great to have trails that are specific for our sport which can really enjoyed with less danger to myself and riders of other off-road vehicles. This is a great opportunity to consider adding these trails. I've been involved in the mountain biking community that supports the recent trail additions at the Cuyahoga Valley NP, Cleveland Metroparks and Summit County Metroparks and can attest that these trails get a ton of use and enjoyment from new riders as well as your more experienced types.

Thanks for listening!
