Comments: Wayne National Forrest New Single Track Ohio Tourism Family Vacation Destination?

Specialist Neuenfeldt,

I highly recommend the establishment of single track motorcycle only trails along with the development of our National Forests that allow our families access to these resources. I have taken advantage of almost all of Michigans different trail system user group trails and enjoyed using the forests for the cooperation of all creatures both man and animal. I look forward to the day when I can invest my money in the communities sorrounding the Wayne National Forest. Please feel free to contact me is you have any questions or concerns. I believe I have a unique perspective to share. I would love to chat with you.

Sincerely,

Nathan Johnson
