Comments: Wayne National Forest

To whom this may concern. I had found out from my club Toledo TrailRiders that there is a chance that single track trails may be added to the Wayne National Forest. I think this is a wonderful idea. Michigan has miles of single track trails. I think that we should be doing the same. Single track trails require low maintenance and does not have a negative impact on the land of wildlife. We have one mile of single track trail at the Maumee State Forest at this time. A lot of people enjoy this kind of riding. We will be adding more trail this year. I believe that single track would benefit the Wayne National Forest to.
