Comments: Ruby Oil and Gas

To whom it may concern. I am a 38 year resident in Nevada and have made countless trips to the Ruby Mt. area for camping and especially fishing. I come from the midwest and have seen up close the damage that oil drilling can do to the wild lands. Nevada is in a unique position to preserve and protect some of the most pristine natural habitats for game and just downright beautiful wilderness in the United States. I hope to bring my 5 grandchildren to Ruby Mountain one day. It would be a tragedy if the area was spoiled so that a few out of state corporations could make a quick buck.

Thank you for your consideration.

Trig Crawford
