Comments: Do NOT designate any more land in Idaho as wilderness. Central Idaho has enough wilderness area already. If there weren't any wilderness areas already, it would be a different story but we cannot close off all the public lands to those who do not have the physical ability to hike in or pack in on horses. In addition, the smoke in the air from the wilderness (let it burn policies) make Idaho air pollution worse than living in metropolitan areas. Wilderness designations are actually a neglect of the land on a level. Again, do NOT designate any more lands as wilderness in Idaho. Thank you.
