I am writing to you in regards to the Wilderness Inventory & evaluation on the SC-NF. I am a strong believer in Wilderness & wilderness values & I feel very fortunate to work and live near one of the largest wilderness areas. What I do not agree with is the addition of more wilderness to our forest, especially The West Fork Morgan Plus. I feel that this area does not have true wilderness values & that Wilderness designation would take away many opportunities for motorized recreation, for example the Furnace Creek trail #4140 & trail #6037 which are both designated motorized trails. The Wilderness Act states that Wilderness is an area that is untrammeled by man many of these areas are anything but.
