Comments: Wild and Scenic Eligibility Evaluation Comments

Dear Assistant Forest Planner Brittany Duffy,

Dear Ms. Duffy,

Please review Outdoor Alliance's GMUG Mapping Tool and American Whitewater's National Whitewater Inventory to inform the Final Eligibility Evaluation. We want to make sure all relevant river segments are included.

Especially consider Daisy Creek (i.e., Poverty Gulch), the Slate River, and the Upper East River, Taylor River above Taylor Reservoir, the Ruby, Anthracite Creek and the mainstem Anthracite, the Uncompahgre And the San Miguel.

Each of these rivers are free-flowing and possess at least one ORV and they should be listed as Eligible in the Final Eligibility Evaluation.

Thank you for considering my comments on the GMUG Eligibility Evaluation.

Sincerely,

Carl Nehls

Colorado Springs, CO 80919
