Forest Supervisor

Daniel Boone National Forest

Dear Dan Olsen,

I am strongly opposed to your Plan Amendment, which will result in significantly more logging on the Daniel Boone. I've seen photos of recent logging on the Redbird District, and I found it truly obscene what has been done to a once beautifully forested hillside. The Forest Service clearly should not give itself more leeway to devalue, degrade, and rut more of our national forest.

In this time of climate crisis, we need trees standing for clean air, clean water, and healthy soil. Don't endanger our health. Manage for old growth.

Sincerely,

Mark Schimmoeller
