First name: Betty

Last name: Hawkins

Organization:

Title:

Comments: I as a tax paying individual from Kentucky have a right to comment on and disagree with the proposed Amendment. Our forest have been protected for many years and with the executive order the 1% feel they should make a buck out of our beautiful forest. I and many other people Strongly Disagree with the Proposed Amendment. Please Save the Forest and Protect the Bats and other Species that are being harmed from the rampage that is going on. Please let it be known We the People Want Our Forest Left Alone and The Wildlife Protected From Deforestation!

Betty Hawkins
