Title:

Comments: I support the wilderness recommendations in Alternative D of the Revised Draft Forest Plan, but please add the 230,000 wild, roadless acres of the Gallatin Range as Recommended Wilderness in the final forest plan.

The plan should prohibit all motorized and mechanized uses, and any other activities not consistent with wilderness protection, in the Recommended Wilderness areas.

In the Absaroka-Beartooth and Lee Metcalf Wildernesses, group size limits should be reduced. And there should be no fish stocking in naturally fishless wilderness lakes, which significantly alters the areas' natural conditions.

The plan must address the issue of contamination of lakes and streams by human and pack animal feces. Thank you for your attention.
