First name: Brady

Last name: Bever

Organization:

Title:

Comments: Please do not close the Lionshead area to cyclists. This area represents an incredible asset to the cycling communities of Eastern and Southern Idaho and Southwestern Montana and its loss would be tragic for us. Furthermore, cyclists like myself and the mountain biking stewards who live in the immediate area, are a source of trail work and maintenance to these trails and they would be worse for it if they are closed to us.

Please do not remove a recreational opportunity that allows people to experience this area and brings monies to the local communities.
