First name: Elveda

Last name: Martinez

Organization: Walker River Paiute Tribe

Title: Water Resources Coordinator

Comments: The Walker River Paiute Tribe is in agreement with getting rid of invasive and noxious weeds in USFS areas. We encourage that only safe pesticides be used; those that are safe to humans and to non-invasive plants. We want to be notified via of letters to the Tribe on a yearly basis on what areas will be treated. We also want to be notified if areas have culturally sensitive artifacts or plants.
