First name: Cate

Last name: Stillman

Organization: Yogahealer

Title: CEO

Comments: Please keep the Custer-Gallatin National Forest in Southwest Montana open to mountain bikers. Mountain bikers bring prosperity to regions and help maintain trails. Mountain bikers are low impact, create no pollution, and are a boon to their communities for promoting healthy activities.

Mountain bikers train their children to be physically active in the outdoors without needing motorized equipment. In general, as a population, they are educated to leave no trace or trash.
