Comments: Thanks for taking my comment on this decision.

I travel to the Lionhead to ride bikes with good friends every September. We typically ride Mile Creek to Sheep Creek. This has become a very important trip for me and my friends annually, we would be devastated if access to this area were interrupted. A few of us also have participated in trail days in the area, and feel that our sweat equity and cooperation should not go unnoticed in this decision making process.

Thanks so much.
