Comments: Re: Ellis Integrated Vegetation Project

Dear Mr. Houck:

Thank you for this opportunity to participate in scoping for the Ellis Integrated Vegetation Project.

This undertaking may have potential to impact the nationally significant Oregon National Historic Trail (NHT). As administrator of the NHT, the National Park Service asks that potential impacts, particularly to any high potential historic sites and high potential route segments and their setting, be identified and taken into consideration.

Shape files for the NHT alignments and their high potential sites and segments can be downloaded from this location: <https://irma.nps.gov/DataStore/Reference/Profile/2238911>

Further, if effects to the NHT are identified as part of the National Environmental Policy Act and National Historic Preservation Act, we ask to participate as a consulting party in the Section 106 process. Please direct questions and any further information to me, Lee Kreutzer, at National Trails Intermountain Region, 50 West Broadway, Suite 950, Salt Lake City, UT 84101. I can also be reached by email at Lee.Kreutzer@nps.gov and by phone at 801-741-1012 ext 118.

Sincerely,

Lee Kreutzer

Archeologist
