Comments: Dear Ranger Garten,

I understand you will be logging in our area of the National Forest soon. I am a property owner on Brush Creek Road across from Scratch Gravel Road Bordering the national forest. My fiancé owns a large track of land on both sides of Brush Creek Road and on Scratch Gravel Road that also borders the national forest. We respectfully request that a buffer be left on the property lines and that the limbs be chipped and sold. This would also generate monies for the forest. My property is for sale and the destruction that happens with logging is an eyesore and will probably reduce my chances of a sale if the picturesque views are destroyed. Thank you for considering my situation.
