Comments: As a mother of a young daughter I am sickened by your proposal. My daughter will never be able to experience the fullness and joy of this land should this pass. Please do not do this to us now nor our future generations. I appreciated and wholeheartedly agree with the comments submitted by Merrill Saleen. Thank God he has a voice of logic and reason for the people. Listen to him and all those who are in opposition to this proposal. They represent the best future for people and land. Thank you.
