Comments: I am writing about the need to preserve wildlife in the Custer Gallatin Forest Plan Revision. I love wildlife and this area still has it, unlike all the other places that have killed off everything. I've been planning a trip to Yellowstone specially to see their wildlife. We need to regulate and protect everything that is alive to keep it alive. We should not allow motorized vehicles into this area. We need to sacrifice human's not getting to destroy everything and in return keep the area natural and wild like we found it.
