Last name: Graves

Organization: self

Title:

Comments: \* The plan should prohibit all motorized and mechanized uses, and any other activities not consistent with wilderness protection, in the Recommended Wilderness areas to preserve their wilderness qualities.

\* The Forest Service should reduce group size limits in all areas to protect all wildernesses from harm.

\* Vacant grazing allotments in the Wildernesses should be closed so these areas can return to a wild condition.

\* The plan should eliminate fish stocking in wilderness areas.

\* The plan should not allow trail construction or reconstruction in the trailless areas of the Absaroka Beartooth and Lee Metcalf Wildernesses. This provides remote areas for wildlife as well as premier areas for solitude.

\* I support the wilderness recommendations in Alternative D of the Revised Draft Forest Plan; however, they must be improved by adding the entire 230,000 wild, roadless acres of the Gallatin Range as Recommend Wilderness in the final forest plan.
