Title:

Comments: I prefer alternative D since I think it maximizes wilderness.

I am would like to see horses and mule use reduced and spread out.

Put the management focus on keeping the area as natural as possible. Introduction of non-native species should be prohibited

Group sizes for any activities should be limited to minimize disturbance to wildlife and destruction of habitat.

The draft plan has little direction for administering the Absaroka-Beartooth and Lee Metcalf Wildernesses.

Keep wild areas wild; limit trails in areas without them already. After all, any human activity negatively impacts wildlife to a greater or lesser extent.

Maximize wilderness areas wherever possible. Prohibit motorizes vehicles in roadless areas and don't allow any new roads.
