Comments: As a Montana resident and avid outdoorsman, this plan revision is important to me. As I read it, I suggest Alternative D of the draft forest plan, with a few changes, including:

Add the entire Gallatin Range to the final forest plan!

Stop stocking fish; naturally fishless lakes should remain fishless.

Stock groups should be 8 stock with 12 people maximum to reduce impacts on wilderness.

What are we doing about fecal contamination of lakes and streams?

CLOSE ALL VACANT GRAZING ALLOTMENTS. Super critical to do this...

No more trail construction, let wild places remain wild.

Make sure to prohibit (and enforce) the use of any motorized and mechanical uses.
