First name: Tami

Last name: Lukachy

Organization:

Title:

Comments: I urge you to please save our public lands and the wildlife that depends on having this land. We are currently in a position that requires us to protect and save our lands and wildlife from destruction. We need to save this planet and not hand over our lands for cash.

You should uphold your office and protect our lands and protect our wildlife. We need an eco system that will help us on the future.
