Comments: I support the wilderness recommendations in Alternative D of the Revised Draft Forest Plan; however, they must be improved by adding the entire 230,000 wild, roadless acres of the Gallatin Range as Recommend Wilderness in the final forest plan. The following three points also expand on the importance for the wild Gallatin Range. There should be restrictions on the number of stock and people allowed in the area, no more than five stock and eight people per group. Stocking of lakes should be eliminated. No repair of current trails should be permitted. No new trails allowed within the area. Any vacant grazing allotments should be closed. Any motorize vehicle traffic should be prohibited as this adversely impacts the wilderness areas in question.
