Title:

Comments: Vacant grazing allotments in the Wildernesses should be closed so these areas can return to a wild condition.

No trail construction or reconstruction should be done in the currently trailless areas of the Absaroka Beartooth and Lee Metcalf Wildernesses. This provides remote areas for wildlife as well as premier areas for solitude.

The plan should prohibit all motorized and mechanized uses, and any other activities not consistent with wilderness protection, in the Recommended Wilderness areas so as to preserve their wilderness qualities until Congress acts on the wilderness recommendations.
