Comments: I want to express my continued support behind cycling in the Custer Gallatin Forest. I also 100% back and support the ideology of bikes in wilderness areas. I find biking in the area to be one of Montana/Idaho's biggest enjoyments, and a great asset to preservation. I support the GFP agreement, and see the health of the forest as coinciding with the physical and mental health of those who live in the region. Being able to access areas such as the Lionhead and Bridger range are essential to residents in these areas, and thanks to the hard efforts of many volunteers from the cycling community many of these trails are in way better shape than they would be with out the cycling community.
