Comments: Please quit limiting the public's access to their land. While I am for protecting our wilderness areas, we have plenty of them! The old, the young and the disabled all deserve to have the chance to explore the public lands they pay to maintain. They can not hike for miles. Jeeps and ATVs don't spread noxious weeds like horses. If funding is an issue, then charge an offroad sticker fee. I personally would be more than willing to pay it if it meant keeping the roads open. Thank you!
