Comments: I support the wilderness recommendations in Alternative D of the Revised Draft Forest Plan but would like to see an additional 230,000 acres be added to the area. It should be kept free of roads and motorized vehicles that are not used in wildlife protections. Limited groups of people and animals would greatly benefit this fragile ecosystem and the wildlife living there.

The grizzly bears, gray wolves, bighorn sheep, moose and mountain goats that call this forest region home must be left alone to flourish once again in their native habitat.
