Title:

Comments: I am extremely concerned about the continuing degradation of our planet and its natural resources, including wildlife on land and sea. Wilderness areas should remain exactly that: no roads, no groups of people or herds of animals, no trails where there currently already are none, no motorized or mechanized equipment.

I support Alternative D of the Revised Draft Forest Plan; however, it must be improved by adding the entire 230,000 wild, roadless acres of the Gallatin Range as Recommended Wilderness in the final forest plan.

Teddy Roosevelt would be horrified at the loss of wilderness. Desertification is in our future if we do not change our ways.
