First name: Harold

Last name: One Feather

Organization:

Title:

Comments: 1. END THE COVERUP AT THE RILEY PASS URANIUM MINING COMPLEX...you have poisoned us downstream and you insist this mine hasn't.

2. To consider the negative health effects of low-dose ionizing radiation exposure through surface water, ground water and air transport; especially as this has been occurring to my community Rock Creek (Bullhead, SD). We feel that the US Forest Service's negligence of considering the Rock Creek communities concern that the uranium mines are causing extreme health crises within the community is tantamount to genocide and racism.

3. To revise the US Forest Service Custer Gallatin Forest Plan Revision to either start an Supplemental Environmental Impact Statement or start the EIS process anew to include tribal communities' extreme health concerns. This is our main point that the US Forest Service although hearing testimony from Rock Creek community members about their increasing rates of cancer, birth problems, and diabetes, they didn't include this in the FEIS and replied that the commenting period is over. They were told numerous times about what the sickness and deaths happening downstream, yet they purposefully ignore our concerns. This too is genocide and racism!

4. We demand that all current leases involving uranium, oil, gas as well as other mineral resources be outlawed in the Slim Buttes and Cave Hills and those existing outstanding leases be allowed to expire without renewal of these leases. Agricultural leases must be allowed to expire and not be renewed...THIS IS HUNKPAPA Treaty land.

5. We demand that the name of the Custer National Forest portion of the Custer Gallatin National Forest be changed to Crazy Horse National Forest; this is upon the advice of the story told to LaDonna Brave Bull-Allard by Johnson Holy Rock and Elaine Quiver: that the Slim Buttes and Cave Hills was one of Crazy Horse's favorite places and is part of the Powder River basin that as a condition of his surrender would be his permanent reservation. For this he was murdered at Fort Robinson.

6. We demand that the Sioux Ranger District be renamed Paha Zizipila as this is its true Lakota name.
