Title:

Comments: Attention:

I am writing in support of the Custer-Gallatin Forest Plan Revision that provides for cultural, social, economic, and recreational resources for our country. Custer-Gallatin is visited by people from the US and around the world and holds a prominent place in our country's history.

Ranging from semi-desert to alpine tundra, this area is an important biological research and educational area. Our responsibility to manage this class II wilderness area in accordance with the goals of the NFS. Be certain to do so. Patrick Comer
