Comments: I support the wilderness recommendations in Alternative D of the Revised Draft Forest Plan; however, they must be improved by adding the entire 230,000 wild, roadless acres of the Gallatin Range as Recommend Wilderness in the final forest plan. The following three points also expand on the importance for the wild Gallatin Range: 1. the plan must address feces contamination of people and pack animals. 2. the plan should reduce group size limits accordingly so as to protect all Wildernesses on the forest from harm. 3. the plan should get rid of vacant land grazing allotments so the wilderness can return to wilderness.
