Comments: I support the plan which I think is "D". I want to support the most environmentally conservative plan to allow wilderness to come back and be as whole as possible so it can do its job which is to support life on this earth. We must stop our meddling. There are too many people and if we want any life in the future, we must take care of it now and not destroy it because we are selfish. This has to happen world wide so let's start here. Plan to preserve as much as possible and support the very nature that supports us.
