Title:

Comments: Please protect these remaining wildlands, it will provide secure habitat to connect Yellowstone National Park grizzlies with Glacier National Park grizzlies. We need to protect as much wilderness and roadless areas as possible so there can be connectivity between these isolated ranges. Expanding the Grizzly Bear Recovery Zone to include all of the Absaroka Beartooth, Bangtail, Bridger, Crazy Mountains, Gallatin, and Henry's Lake is vital. Additionally The Hyalite Porcupine Buffalo Horn Wilderness Study Area is no place for mountain biking or off-road vehicle use as it can disturb wildlife for up to a mile on each side of the trail, please include the Hyalite Porcupine Buffalo Horn Wilderness Study Area so that it becomes wilderness. I am asking you to choose Alternative D and secure the grizzlies habitat now, before it is too late.
