Comments: I am writing to express support for protecting Wildlands in Custer Gallatin National Forest. We have enjoyed many areas in this forest and are especially concerned that the recommended Wilderness areas are protected the same as designated Wilderness areas. Even though we are also mountain bikers we do accept that there are areas that mountain biking should not be allowed. We also appreciate the roadless areas. These are priceless areas that need to be protected and they are a drawing card to the area boosting tourism and economy.
