Comments: Thank you for allowing me to comment. The Custer Gallatin Forest faces large and increasing threats, from population impacts to climate change. Protecting the Forest from negative impacts, preserving its character and promoting resilience should be the Forest Plan Revision's goals. The long-term health of the Forest's air, water, wildlife and recreation would be best served by Alternative D. Please seek to protect the national treasure that our Forest is. Thank you, again.

David Lehnherr
