Comments: I would like to see the Custer Gallatin Forest plan revision take advantage of this opportunity to protect the Endangered Yellowstone Grizzly Bear. I support Alternative D. The wilderness/habitat protected in Alternative D provides the opportunity for the Yellowstone population to connect with the Glacier population. This connection is critical to the viability of Grizzly Bears in our country. I would like to see the Hyalite Porcupine Buffalo Horn Wilderness Study Area, the Bridger Mountains, and the Crazy Mountains given wilderness designations. I also wish that the Forest Service will support and encourage wildlife overpasses and underpasses along I-90 and state highways to allow safe passage for Grizzly bears and other wildlife. These wildlife overpasses and underpasses are key elements in connecting the Glacier and Yellowstone Grizzly Populations. Thanks for the opportunity to comment.
