Title:

Comments: I am writing about the Pryor Mountains.

1. It would be beneficial to have more than the one hiking trail that currently exists, and it would be important that the trails be protected by a minimal motor noise zone around them.
2. I would encourage the Forest Service to create an additional Research Natural Area, dedicated to maintaining the Pryors' wilderness characteristics and to be used for scientific research projects. This would also provide non-motorized vehicle territories in the mountains.
3. I would encourage restrictions of some Off-Road-Vehicle travel, to help protect the natural beauty and wide diversity of plants in the Pryors.

I have been recreating in the Pryors for over 35 years--camping, bird-watching, horse-watching, exploring, walking, and taking numerous courses on botany, history, archaeology, the Crow Indians, and geology, and would love to have this area protected to the greatest extent possible.
