Comments: I love my public lands. It's a big reason I still think the USA is the best country in the world. Whether or not I actually am able to go to Wilderness Areas I fully support areas that still qualify to be designated with the big "W". At 68 years of age I've seen our beautiful public lands being used and loved by more and more people. There is not enough for the future. Please don't squander what we have left. Designate any areas that qualify for Wilderness as Wilderness. Future generations will thank you and, if they don't, they can "undo" it. Preserve it now and leave what's left to future citizens.
