First name: Jill

Last name: Weiser

Organization:

Title:

Comments: In this time of making a buck for big business rather than cherishing our beloved planet, we MUST take a stand in this state we call, " The Last Best Place". It is the BEST, and now it seems to be the LAST! Please take note of the long time citizens of this most loved state and their fervent fight to save what is left of the planet's web of life and its wonders in plants, birds, and endangered animal life. Take note of clean water and fish and air all we love . Let us not be the mutant species which destroys the world.

Currently we have an administration which has no concept of nature.

What a tragic spot in history we have arrived at. These old men serve only themselves. They are steam rolling over creation with their personal greed. Forest Service, do NOT be henchmen and women of this self- centered doctrine.

Save MONTANA 's WILD PLACES!!!!

Jill Weiser, Kalispell, formerly of Lewistown
