Comments: To Whom it May Concern:

Last summer my family and I had the privilege of enjoying a week long backpacking trip into the Absaroka Beartooth Wilderness area. It was breathtaking, peaceful and a once in a lifetime trip for our family. We hope that this area will continue to be preserved as wilderness, with only hiking and horse back riding allowed with no motorized vehicles. In addition we hope that the Forest Service will work to preserve critical habitat for the Grizzly, Lynx and other native species in the Custer Gallatin National Forest. We choose to live in Montana because we love the mountains and their wildlife and hope to enjoy it long into the future and that others will also have this opportunity.

Thank you,

Anne Martinez
