Comments: For two years friends and I from the Missoula Tuesday Hikers have driven east to explore this part of Montana. We stayed in Red Lodge, Cooke City, and spent four days each time enjoying the solitude, beauty of these wild places.

Please protect these wild places, excluding motors so that we enthusiastic hikers can continue to explore. This was a female group, and half of us are in our 80's! We have grandchildren we want to introduce to Eastern Montana.

We want them to know the priceless places that we Montanans call home.
