Title:

Comments: To whom it may concern,

I have tried reading and looking at the maps in your draft revised management plan, I have to say it is rather difficult.

So here are my priorities, places special to me that I would like to see protected.

The Beartooths, the Beartooth Wilderness Area, is my backyard and very special to me. Please retain the areas that are currently recommended for wilderness. Also East Rosebud to the Stillwater, Red Lodge Creek and Emigrant peak.

The Pryors are another very special place, please protect the roadless areas there that are recommended wilderness.

Thank you for your time and efforts.

Sue Bressler
