Last name: Chamberlin

Organization:

Title:

Comments: I write to support Wilderness and protection of quietude and peace in the Crazy Mountains. These high peaks are magnificent in their visual allure. The history of these mountains are rich with Native American traditions and they must be respected. They've been ignored too long. Minimize and restrict motorized use in these mountains. This is a place for quietude, contemplation and enjoyment, not for noise and outlaw behavior.

Wayne Chamberlin
