Title:

Comments: The most important thing that we have in this world is the wild world around us. The most important thing for me, for our children, for our life and our lungs and our happiness is to be in the wilderness. Please protect all of our wild places. The beauty of the Crazy Mountains, the amazing Pryor Mountains, the blindingly beautiful Absaroka Beartooth.

Please preserve EVERYTHING wild that you can. It is the best of Montana and the special part of Montana!!
