Comments: I believe that the draft plan for the Galatin Range should prohibit motorized & mechanical uses.

I think it best to recognize the entire 230,000 wild & roadless acres of the Galatin Range as wilderness.

Otherwise, Alternate D is, in my opinion, preferred. I think vacant grazing allotments should be allowed to return to their natural state, & please keep stock animals to the reasonable per use basis of 8 animals or less.

Thank you for considering my opinion, John Dunn
