Title:

Comments: I actively recreate in the West Fork of Rock Creek as a mountain biker, rock climber, skier, and trail runner. I support protecting the existing wilderness areas, but would like to see the limited access to mountain biking around the Red Lodge area continue or grow. Most of the best quality and most accessible mountain biking trails in our region are in or around the west fork of rock creek and I hope that these areas remain open to biking. This is a fast growing sport in our community and trail access and building are desired by many outdoors people in Red Lodge.
