Comments: We need to protect as much wilderness and roadless areas as possible so there can be connectivity between the isolated ranges of Absaroka Beartooth and Gallatin National Forest, Crazy Mountains, Bangtail and Bridger Mountains.

It is also crucial that there remains secure wild habitat void of mountain bikers and ORV's. There is not much critical habitat left and it all needs protection.

I would also recommend expanding the Grizzly Bear Recovery Zone to include all of the Absaroka Beartooth, Bangtail, Bridger, Crazy Mountains, Gallatin, and Henry's Lake, The Grizzly Bear Recovery Zone needs to cover the whole national forest.

These bears need wild, connected lands and you can protect them and ensure their survival.
