Comments: Dear Supervisor,

Please provide WSA protection for the unique and wondrous Crazy Mountains. The Crazies represent the last of their unique natural habitat, and future generations deserve to have this area protected, as is, in a WSA. Four generations of my family were born and raised in eastern Montana, and the Crazies represent the true last of the best Big Sky Country. I challenge you to experience such an expansive grandeur anywhere else. The Crazies have natural habitat that must be protected. I do support the Crow Nation having stewardship of the Crazies. We must begin to repair long injustices.
